

Sample Renters Insurance Policy - ClaimWise Demo

Section 1: Definitions

"Personal Property" means the policyholder's owned belongings located within the rented residence identified on the Declarations Page.

"Business Property" means inventory, tools, equipment, or supplies used in connection with a trade, profession, or business, whether operated from the residence or elsewhere.

"Liability Coverage" means coverage for the policyholder's legal responsibility for bodily injury or property damage to others.

Section 2: Covered Perils - Personal Property

This policy covers direct physical loss to Personal Property caused by: fire or lightning; theft or attempted theft; vandalism; windstorm or hail; explosion; smoke; and sudden and accidental discharge or overflow of water from plumbing, heating, or household appliances within the residence.

Section 3: Liability Coverage

This policy provides Liability Coverage for bodily injury or property damage unintentionally caused by the policyholder or a resident household member to a third party, up to the limit shown on the Declarations Page, including associated legal defense costs.

Section 4: Exclusions

This policy does NOT cover: (a) Business Property or business-related inventory, equipment, or losses, regardless of where stored, unless a Business Property Endorsement is attached; (b) flood, surface water, or earth movement including earthquake; (c) theft or loss of property left unattended in a common or shared area without a filed police report; (d) bed bug, pest, or vermin infestation damage; (e) intentional acts by the policyholder or a resident household member; (f) damage to the physical structure of the building itself, which remains the landlord's responsibility and insurance obligation.

4.1 Business Property Exclusion: Tools, inventory, or equipment used for a trade, side business, or profession are excluded from Personal Property coverage regardless of storage location, including storage units. A separate business property or inland marine policy is required for such items.

4.2 Unattended/Unreported Theft: Theft claims involving property left in a shared, common, or otherwise unattended area require a police report identifying the circumstances of the loss before any payment will be considered, particularly where the responsible party is known or suspected.

Section 5: Required Documentation for Claims

To process a claim, the policyholder must submit: (1) a completed claim form; (2) a police report for theft or vandalism claims; (3) an inventory of damaged or stolen items with estimated replacement values and, where available, receipts or photographs; and (4) a written statement describing how the loss occurred.

Section 6: Claims Process

Upon receiving a completed claim submission, a claims adjuster will review the documentation and issue a coverage determination within 15 business days. All coverage determinations are preliminary until confirmed by a licensed human adjuster.

Section 7: Deductibles

The Personal Property deductible is shown on the Declarations Page and is subtracted from the covered loss amount prior to payment. Liability Coverage is not subject to a deductible.
